

London is considered to be one of the world's most important global cities

London is the capital and largest city of England and the United Kingdom

London has a diverse range of people and cultures, and more than 300 languages are spoken in the region.

London was the world's largest city from c.1831 to 1925.

London was bombed by the Germans during the First World War and during the Second World War

London has a temperate oceanic climate receiving less precipitation than Rome, Bordeaux, Lisbon, Naples, Sydney or New York City

Today it is the business center of England. Here you can see the most important banks in the world and many offices.

The city : it is the oldest part of London. It's the center around which London has developed
