Your Ref.: Arch. Claudio Chiappone - 14 Jun 2021

We send the following approved drawings:

Number	Sheets	Date	Title of Drawing / Your Ref.	Annuls/Replaces
CDST-25696		29 Jul 2021	EXTERNAL SCUPPERS PLAN - P148-05	

Extra-reinforced thickness as per Tab. 5, (3) of "RINA Rules for the Classification of Inland Waterway Ships", Pt C, Ch 1, Sec 8 is to be considered when dimensioning the shell-pipe connections. The minimum wall thickness of the pipe, however, does not need to exceed the thickness of the shell side plating.

In case of any question please contact ENRICO LODI.

Yours faithfully,
RINA Services S.p.A.
MASSIMILIANO CAVIGLIA
